

## Rapid onset of action: Glucevia™ works after the first dose

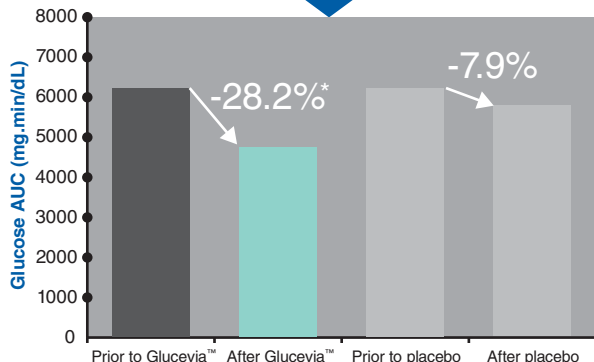

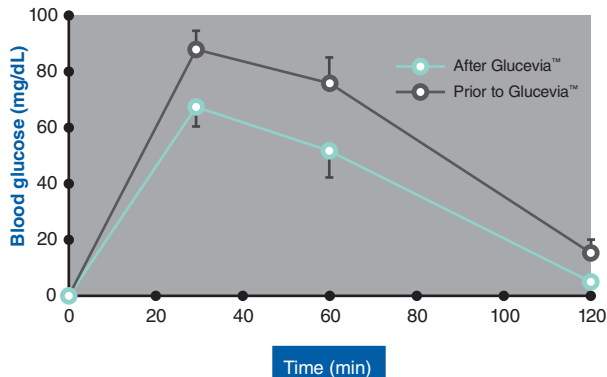

Randomized, double blind, placebo controlled, cross over, acute study

Glucevia™ immediately reduces the incremental glucose Area Under the Curve (AUC) by 8.8% in healthy volunteers. A dose of 1,000 mg of Glucevia™ has an immediate effect on postprandial blood glucose concentration.<sup>(2)</sup>

## Significant benefit of Glucevia™ in long term with no side effects

Randomized, double blind, placebo controlled, cross over 7-week study

Healthy, volunteers received 1,000 mg of Glucevia™ per day for 3 weeks. Incremental glucose AUC was significantly reduced by 28.2% versus baseline. These results demonstrate that a daily dose of Glucevia™ helps to manage glycemia on a long-term basis.<sup>(3)</sup>
